

“We proudly supply preserved timber fencing to Her Majesty The Queen and our products can be seen in situ at the Royal Stud.”

Scots Pine (*Pinus sylvestris*)

## COMPANY PROFILE

- Over 100 years' experience in the UK pressure treated timber sector.
- Sustainably sourced high grade timber.
- Supplier of preserved timber fencing to Her Majesty The Queen and have held this Royal Warrant since 1986.
- We are committed to improving environmental performance, preventing pollution and increasing the positive impact of our activities.
- We believe everyone should be treated with dignity, fairness and respect at work.
- We build partnerships with all our suppliers in order to develop sustainable, visible supply chains for the products we sell.
- We hold the following accreditations which help us deliver exceptional service to our clients. FSC • PEFC • WPA Benchmarking • ISO 9001 • ISO 14001 • ISO 18001 • ISO 22301.

With our own milling and fabrication facilities, and long serving highly skilled staff we produce our own range of bespoke products as well as working with customers' unique designs to create one-off items.

We stock a full range of fencing, gates, poles, track timbers and landscape products at all times here at our site in Boston, and our stock items are available for collection or nationwide delivery.

“Hand crafted on site, all our products receive the individual attention to detail required to perform to the highest standards.”

Calders and Grandidge has built a strong reputation as one of the oldest established and most well respected names for the supply of pressure treated timber. Operating from our 46 acre site in Boston, Lincolnshire, we have over 100 years experience providing timber poles, railway sleepers, gates and fencing pressure treated with Creosote or Celcure.

We are equipped with two 36m Creosote impregnation vessels and two 15m Celcure autoclaves. These facilities enable us to treat

high volumes of timber quickly and efficiently, meaning we can get our products to you faster.

The quality of our products is assured — as proud holders of ISO9001, Sector Scheme Four (NHSS4 for highways use), and WPA Benchmark accreditation we are committed to ensuring only the finest quality goods and services are offered to our customers. Our highly motivated and customer focused staff ensure this standard is maintained at all times.

As holders of ISO 14001, together with FSC and PEFC Chain of Custody accreditation, we take our Corporate Social Responsibility and environmental impact very seriously. As such Caldets and Grandidge were the first company in the UK to import FSC certified hardwood sleepers for the UK rail network and continue to operate with the environment firmly in mind throughout all our activities.

Our OHSAS 18001 accreditation means that we take the health, safety and wellbeing of our staff just as seriously as our commitment to the environment and our customers.
