

“Our bespoke range of high quality garden and landscaping products can be found in some of the most prestigious parks in the country.”

01

- Large or small bespoke projects undertaken.
- Sustainably sourced high grade timber.
- Treated under pressure with Celcure to European Standards.
- All products produced to the same high standards.
- Nationwide delivery.

GARDEN AND LANDSCAPING

Garden and landscaping products are a growing part of our business. We offer a small range of bespoke products that we can manufacture including benches, planters, picnic tables and landscaping timbers. All our products are manufactured from high quality European softwood timber sourced from sustainable certified forests and pressure treated with Celcure. Where customers prefer a darker finish, our Celcure products can be stained black utilising Sleeper Oil. All of our products are pressure treated with Celcure, and for our landscaping timbers we also offer the appealing look of creosote by utilising Sleeper Oil.

We were proud to be involved with Her Majesty the Queen's Coronation Festival in 2013 where our Sleigh Benches and picnic tables were in use around the gardens.

Our Garden and Landscaping Products have also been purchased by PGL Leisure and The Environment Agency's Head Office, Bristol.
